

gulyai-pole

the taste of natural mayonnaise

Today, we are constantly being told of simplicity. It seems that if the recipe is not Provencal or Thai, you will not see such a dish on the table. Just cut the cucumbers and tomatoes and a pinch of salt....too easy.

"Gulyai-pole" products are made by people who won't name you 20 different sauces. They know the smell of the soil and just squeezed oil. Everything they do with their own hands is simple and genuine. "Gulyai-pole" sauces, mayonnaise and ketchup are also genuine.

**refined, deodorized,
frozen sunflower oil
of the "P" brand
for deep-frying**

High-quality, high-purification sunflower oil with antioxidant and anti-foam is specially developed for long-term deep-frying. Such oil differs from classic oil in that it does not foam, does not smoke and oxidizes much less when used repeatedly. Thanks to this, oil consumption is significantly reduced. The best choice for HoReCa.

The image features a green square logo with the text 'DELTA FOOD' in white, sans-serif capital letters. The logo is centered over a background of a golden-brown, textured surface with a faint, hand-drawn sketch of a large industrial building or factory structure. The sketch uses thin, dark lines to outline the building's frame, including a tall tower on the left and a long, multi-story structure on the right. The overall aesthetic is that of a technical drawing or architectural plan on aged paper.
